# TRINITY FLUIDS, LLC

Designed for Quality, Value and Professionals

---

All Trinity Fluids, LLC brands are designed to promote positive results, if used properly. You can choose to not deviate from our instructions or you can experiment with it based on your level of experience and desired personal look and feel you desire.

The following mixing instructions will give the embalmer a successful place to start.

**AF30 ROCK'EM Arterial Fluid mixing instructions:**

- 6 – 8 ounces of fluid per one gallon of water.
- Do not mix Trinity Fluids' PI 3N1 with AF30 Rock'em. Use PI 3N1 ONLY as a Pre-Injection when using AF 30 Rock'em.
- Quick chart for using Trinity Fluids Arterial Series

Per 2.5 gallons of water	100 lb	150 lb	200 lb	250 lb
AF30	15 oz	15 oz	16 oz	18 oz.

- You will be able to convert AF30 Rock'em into AF30 by mixing PI 3N1 as a co-injection. By doing so you will decrease the amount of firmness in the tissue that you would normally get when using Rock'em.
