
TRINITY FLUIDS, LLC

Designed for Quality, Value and Professionals

All Trinity Fluids, LLC brands are designed to promote positive results, if used properly. You can choose to not deviate from our instructions or you can experiment with it based on your level of experience and desired personal look and feel you desire.

The following instructions will give the embalmer a successful place to start.

ΣΔΤΘ Anti Coagulant usage instructions

- This product can used as a pre-inject and co-inject fluid to eliminate blood clots.
- Only use a maximum of 3 ounces per total solution. (3 gallons of solution)
- When using this product with AF30 Rockem is will change the pH to 7.0 causing the Rockem to react like our standard AF30. This will delay final fixation for an extra 4 or 5 hours.
