
TRINITY FLUIDS, LLC

Designed for Quality, Value and Professionals

All Trinity Fluids, LLC brands are designed to promote positive results, if used properly. You can choose to not deviate from our instructions or you can experiment with it based on your level of experience and desired personal look and feel you desire.

The following instructions will give the embalmer a successful place to start.

Red Scarlett Dye

- When using Dye always mix/blend into solution for 10 minutes prior to injecting. By doing so you will ensure that your case will not have any blotching or irregular coloring.
- If you require additional color to your solution begin with 1oz. of Red Scarlett Dye per 2.5 gallons of solution.
- Red Scarlett dye is a non-active dye.
